Lower Wyke Farm Solar Park

COMMUNITY CONSULTATION

British Solar Renewables

The proposed Lower Wyke Farm Solar Park, located on land at Lower Wyke Farm, north of Walworth Road, would deliver 29MW of electricity to the National Grid. The project would produce enough renewable energy to power over 7,200 homes and save over 6,400 tonnes of CO_2 emissions each year.

Our community consultation is running from 7 November 2022 – 5 December 2022. We invite you to take part and have your say on our proposals. More information is available on the project website, including the opportunity to give your feedback.

Drop-in Consultation Event:

Visit our consultation to find out more about our proposals and speak to members of the project team:

Tuesday 22 November, 3pm – 7pm at St Mary Bourne Village Centre, Bourne Meadow, St Mary Bourne, Andover, SP11 6BE
